1 Music symbols

The second inversion of a triad is denoted as $\frac{6}{4}$, for example, $V\frac{6}{4}$. The size of accidental notes is redefined. $A\sharp$. $A\flat$. $A\flat$. $A\flat$. $A\sharp$. The $E\flat$ major key is shown in Example. 1.1.

Example 1.1 The $E\flat$ major key

Note that the default size of accidentals provided by Lilyglyphs package so we have redefined them.

I like the sudden change from *pp* to *ff*, which makes me excited. The dynamic *sf* is also good.

Figured bass is also defined by us. We can write the figured bass in equations.

$$\begin{matrix} 7\flat \\ 5 \\ 3 \end{matrix}$$

The size of Lilyglyphs symbols cannot be modified in mathmode, so we define a ‘mathscript’ command to switch to text mode and then apply the ‘script-size’ command.

2 Example scores

In Example. 2.1 we show a piece of a song, Yan Yuan Qing, popular in Peking University. It is not the school song of Peking University, but students like it for

it carries their love and responsibility for their home and country.

Example 2.1 A song

红楼飞雪一时英杰先哲曾书写
爱国进步民主科学忆昔长别阳关千
叠狂歌曾竞夜收拾山河待百年约
